POETRY.

The Angel of Patience.

Beside the toilsome way,
Lonely and dark, by fruits and flowers unblest,
Which my worn feet tread sadly day by day,
Longing in vain for rest;

An angel softly walks,
With pale, sweet face, and eyes cast meekly down
The while, from withered leaves and flowerless stalks,
She weaves my flitting crown.

A sweet and patient grace,
A look of firm endurance, true and tried,
Of suffering meekly borne, rests on her face—
So pure, so glorified.

And when my fainting heart
Desponds and murmurs at its adverse fate,
Then quietly the angel's bright lips part,
Whispering softly, "Wait."

"Patience!" she sweetly saith—
"The Father's mercies never come too late,
Gird thee with patient strength and trusting faith,
And firm endurance—wait!"

Angel, behold, I wait,
Wearing the thorny crown through all life's hours;
Wait till thy hand shall ope the eternal gate,
And change the thorns to flowers.

Why Aunt Sally Didn't Marry.

"Now, Aunt Sallie, do please tell us why you never married. You know you said once that when you were a girl you were engaged to a minister; you promised you would tell about it sometime. Now, Aunt Sally, you must tell us why you never married. Come, now, Aunt Sally, you must tell us why you never married. Come, now, Aunt Sally, you must tell us why you never married. Come,

TO CANVASSERS.

Active and enterprising young men, in the counties of Forsyth, Surry, Stokes, Wilkes, Ashe, Yadkin, Davie, Davidson, and neighboring counties, who are disposed to canvass their respective townships, may hear something to their advantage by enquiring at this office.

Death of George L. Winkler.

When was a sadder message ever borne to this community than that which conveyed the tidings that GEORGE L. WINKLER was dead—dead at the early age of twenty-two, before the summer roses of his life had time to bloom. Only a few short weeks ago and he was in our midst, radiant with health and hope, and looking forward to a long and useful career under the banners of the Living God, whose armor he had put on, and to whose service he had dedicated his future fortunes. Only a few short weeks ago, and he stood up in the holy place of the church of his fathers, rehearsing the golden legend of salvation in the presence of those with whom he had grown up from infancy to manhood; and now—still, cold and dead, the sepulchre his couch, and the damp clod his pillow.

Of the lamented deceased it may well be said that a faithful portraiture of his character and the simple story of his life would be his fittest eulogy. Educated as a printer, and in our own office, we had many opportunities to learn his worth and to appreciate his abilities. Gifted by nature with more than ordinary endowments of intellect and soul, possessing a warm, confiding and affectionate disposition, and, withal, an energy that laughed at obstacles, it is not wonderful that he attracted the sympathies and won the esteem of all who knew him. His circle of friends was large and increasing; and these friends will mourn with a sincere sorrow over the shadow that has fallen in their midst, and will often sigh, "Oh! for the touch of a vanished hand, and the sound of a voice that is stilled." We who pen this feeble tribute to his memory, and with subdued hearts, lay this testimony to his virtues as an humble offering upon his untimely tomb, will not soon forget the loyal friendship which has passed away, or the kindly sympathies which found a home in the breast which now lies pulseless and passionless beneath the daisies.

And how shall we speak of the dear, domestic virtues which poured gladness into his home? Who shall attempt to portray the inner life within its sacred precincts? The pen is powerless here, for silence is more eloquent than words. We can only commend to the God of all grace and consolation the household upon which the gloom of this great grief has fallen. Out of that gloom will He bring light and peace—light which will be the reflex of the better land, peace that will be ineffable. Let weeping eyes be dried, and sorrowing hearts look up, for he has gone home! Gone home, away from the pain and the toil and the "sea of wreck" whose billows wash the world—gone home to lay aside the cross and receive the crown,

> "Upon the shores where tideless sleep
> The seas of Time,
> Soft by the city of the saints of God!"

Who Shall Judge?

The Elizabeth City *North Carolinian*, speaking of the liberty of the press, says that when it is made the instrument to "subvert good government it should be held amenable both at the bar of public opinion, and before the legal tribunals of the country."

All very well; and who shall judge as to what constitutes a good government? An Englishman will point with pride to his Queen, and recommend the unwritten Constitution of his country as a model. The Prussian will go into ecstacies over the sceptre, almost absolute, of King William; and the Russian thinks his autocratic empire without a peer. There are some, too, who imagined our own government the best the sun ever shone upon until innovators laid their unholy hands upon its Constitution; and there are others who can go back in the history of our own State, and remember a time when we were better governed than we are now. The editor of the *North Carolinian* is not of these. He came hither to teach us politics after the war was over, and considers the past two years as a sample of the best government ever witnessed in this State. A decided majority of our press and people consider it about the worst. The *North Carolinian* would, possibly, like to see radical tyranny and prodigality fastened upon us for all time, and laws enacted, after the fashion of the despotic countries of Europe, to muzzle the press, or punish it if it dares to expose the delinquencies of rulers, or warn the people of the desperate straits into which they are being urged by the rapacity and venality of those who cluster around the footstool of authority. May the fates avert from us such liberty of the press as our radical cotemporary would grant, if it had the power!

The citizens of Rockingham, at the instance of the Agricultural Club of that county, will hold a meeting at Madison on Saturday, Oct. 1st, for the purpose of consulting together and perfecting some plan of operations for a survey of Dan River from Danville to Madison.

Fired Into.

A portion of the disbanded militia was fired into, evidently by some of those *innocent* and *harmless* Ku Klux or their apologists. It occurred while the soldiers were on the W. N. C. R. R. as the freight train was leaving Salisbury—about 1 o'clock at night.—*Advocate.*

There are several statements in regard to the above affair. One is, that a party of officers of the "State Troops" left the train, fired into their own men in order to create the impression that it was done by citizens, and then hurried into the heart of the town where they were afterwards seen. The darkness, it being in the dead of night, favored this villainous design. Another statement is, that about a hundred of the "lambs" were very much intoxicated, had quarrelled among themselves, and did the firing, slightly wounding two or three of their own comrades. Either one of these statements is more probable than that they were fired into by our citizens, as the *Advocate* intimates. It is very certain that the disbanded brigands were very disorderly, and that they seized upon a young lad from the country, beat him over the head with a pistol, and otherwise maltreated him. This getting up of apocryphal Kuklux outrages is a labor of love on the part of our neighbor, and papers of its kidney, but they are "played out."

The Maine Election.

The radical journals find it a laborious business to extract any comfort from the result of the recent Maine election. It is true they have carried their Governor and elected their Congressmen, but at the cost of exhibiting a weakness which is but the herald of swiftly coming disaster to their party. Like Wellington at Waterloo they can well say: "Another such victory will ruin us." In 1868, they had a majority of 20,404; last year it was cut down to some 12,000, and now it is about 5,000. The radical party in Maine is becoming "small by degrees, and beautifully less." The anti-radical gain of 8,000 votes in one year, may be attributed to the people becoming wearied of a party which is all for party and nothing for the country. The opponents of radicalism in Maine have done nobly; they hold the balance of power in the new Legislature, and if they keep on as they have been doing a few years past, they will soon wheel the Pine Tree State back into the position she proudly occupied before radicalism became rampant throughout the land. We are satisfied with the result in Maine, much more so than our radical friends can be notwithstanding their loud professions of delight. Our brethren in Maine are, morally, triumphant; for, as a cotemporary truly says, without the prestige of victory, without organization and without money, they met the dominant party flushed with the pride of long continued success, fortified with unstinted means, and armed with thousands of offices, and succeeded not only in maintaining their ground, but in driving the enemy back with terrible loss. One more trial, and the State will be redeemed. Hurrah for our friends in Maine!

Vice President Colfax.

A letter is published from Vice President Colfax, in which he distinctly avows his determination to retire from political life at the close of his present term of office. Eighteen years of continuous service, during which period he has reached the next highest office known to our laws, have satisfied his political ambition, and he says he will leave public life voluntarily, without a regret, and go into active business. We believe Mr. Colfax to have been singularly free from the graver exceptions taken against so many of the leading men of his party, and that is why, probably, he does not enjoy the full confidence of all the factions composing that party. His candor and straightforwardness are injurious to an organization which exists by force, fraud and misrepresentation, and hence there are those who rub their hands in glee at the prospect of getting rid of him without trouble. The *New York Tribune*, which always has an axe or two of its own to grind, thinks that "Mr. Colfax has performed his full share of the public duty that a republic has a right to require of its wisest and worthiest citizens, and has a right to the retirement which he contemplates, and is so well qualified to enjoy and honor." We cannot help laughing at that very Pecksniffian sentence, knowing as we do that it means nothing more nor less than: "Go, Colfax, go; we weep over your departure, but shan't do anything to prevent it, for there are lots of wise and worthy citizens whose cups of ambition are not yet full, and whom we can get along with quite as well as we did with you."

The Greensboro *Patriot* announces that it has secured the services of P. F. Duffy, Esq., as editor of that paper. Mr. Duffy is a gentleman well known throughout this section for his disinterested efforts in behalf of the Conservative cause, and his accession to the tripod will be hailed with satisfaction, not only by the readers of our cotemporary, but by the editorial fraternity throughout the State. May prosperity follow his footsteps, and catch up with him before many days.

At Last!

"Ye who have tears to shed, prepare to shed them now," for an awful and unexpected calamity hath overshadowed the State. It was not enough that the great and *patriotic* radical party should have been exploded and thousands of confiding hearts and prospering office-holders thus plunged into the depths of sorrow; it was not enough that the people should begin to see daylight in the near distance, and prepare themselves to steer the bark of State into clearer waters; but now must come a crowning sorrow:—The oracle is dumb! The *Standard*, whose sweet prophecies were wont to fall around us like the dew on Hermon, hath succumbed and no longer gladdens us. Weighed down by anxiety, and harassed by torturing cares, it gently closed its weary eyes on last Saturday evening, and passed away. Thus it is,

> "One woe doth tread upon another's heel,
> So fast they follow."

Yea! the *Standard* hath gone down! Its light is quenched, and who will have the daring to relume it? Its merry gibes are over, and the pleasant fibs it was wont to tell no longer fall like pearls of surpassing beauty from the pen of Joseph:

> "O insupportable! O heavy hour!
> Methinks, it should be now a huge eclipse
> Of sun and moon; and that the affrighted globe
> Should yawn at alteration."

What shall we now do for our daily dish of Kuklux syllabub, and all the goblin tales with which the feast was spiced? Whither shall we henceforth turn for early information of the glorious proclamations like those which have shed resplendent lustre upon our recent annals? Who shall take the place of "my son Joseph" in the hearts of his sorrowing countrymen, for he, too, hath gone! Oh! Joseph, Joseph,

> "Couldst thou but know
> With what a deep devotedness of woe
> We weep thy absence, o'er and o'er again
> Thinking of thee,"

thou wouldst return to us, and be as once thou wert, a bright particular star in the radical heaven.

And ye, the faithful few, who have so often gathered under the maternal wings of the defunct, and there been sheltered from the pitiless peltings of the storm, what can your feelings be under this sad dispensation? Ah!

> "Ye are dumb as solemn sorrow ought to be;
> Could your grief speak, the tale would have no end."

And thou, Josiah, martyr of the faith! cans't thou, with unconcern, look upon the untimely fate of thine enemy? Hast thou no magnanimity? And thou art a true physician,

> "Canst thou not minister to a mind diseased,
> Pluck from the memory a rooted sorrow,
> Raze out the written troubles of the brain,
> And, with some sweet oblivious antidote,
> Cleanse the stuff'd bosom of that perilous stuff
> Which weighs upon the heart."

and thus put the *Standard* on its feet again? Try it, Josiah, try it, and one will bless you where only a thousand bless you now.

The Census.

The results of the census just taken have elicited much unfavorable, and, in numerous instances, angry comment throughout the country. In some of the larger cities of the North and West, where pleasing anticipations had been entertained that the census returns would exhibit a decided and flattering increase in the population, these hopes have been rudely dashed by the result. As a natural consequence, there have not been wanting those who hint in language which they take no trouble to disguise, that fraud and incompetency have both had a hand in the work. Some journals of acknowledged influence and respectability go so far as to broadly insinuate that the entire census system this year is not the strictly national affair it has hitherto been, but has been converted into a party engine and subjected to party purposes: that one of its objects was to so manipulate figures as to diminish the representative population in Districts and States which repudiate radical rule, and augment it where they are unequivocally radical. This is a heavy charge, and we do not see how it can be sustained; yet the idea seems to have taken such firm hold in some localities that efforts will be made to retake the census in these localities at State or municipal expense. Whether there be any truth in the charge or not, it will be curious to note the difference between the census taken by Federal authority and the subsequent one.

Want a New State.

The radical newspapers of Western North Carolina, such as the Asheville *Pioneer*, Jefferson *Times*, Rutherford *Star*, &c., are in favor of dismembering the State, and forming a new one to be composed of Western North Carolina, East Tennessee and South-western Virginia. How do our radical friends like that? It seems that North Carolina is too Conservative to afford these restless newspaper politicians the slightest chance for preferment, and their only hope is in getting up a new State, formed out of portions of old ones, so that there will be a host of new offices to fill. But these men "bite a file." We trust their remotest posterity will be buried and forgotten, before North Carolina loses one inch of her territory.

Newberry, S. C., has organized a company for the manufacture of sugar from the Chinese cane.

Georgia State Fair.

It is pleasant to notice that while a certain class of politicians are doing their best to embarrass the good old State of Georgia, her people are alive to their more material interests and are pushing forward with unwonted energy in the race for prosperity. Her State Fair, under the auspices and control of the Georgia State Agricultural Society, will be held near Atlanta on the 19th of next month, continuing probably for ten or fifteen days. It promises to be one of the greatest Fairs ever held in the State, and preparations are being made to accommodate, at least, 100,000 visitors. Twenty-five thousand dollars in premiums are to be offered, besides which the citizens of Atlanta offer a special premium of $2,000 for the fastest trotting horse, and $500 for the next best, competition being "open to the world." As an evidence of the excellent feeling which animates our Georgia brethren, we append the following resolution unanimously passed by the State Agricultural Society, a representation being present from over one hundred counties.

Resolved, That we, the delegates and representatives to the Georgia State Agricultural Society, assembled, do hereby extend to our fellow-citizens of the North, East and West, a cordial invitation to meet their brethren of the South at said Fair, to exchange friendly greetings, to exhibit stock, agricultural implements and other articles of home industry, and thus promote the material interests of all sections.

The Western and Atlantic Railroad reduces its rates for all who visit or exhibit at this Fair, and we presume other Roads will do the same.

The Difference.

The *Advocate*, alluding to certain efforts which are alleged to have been made to connect one Grimsley—who is Grimsley?—with the atrocious murder of a Conservative, named Hart, in Greene county, some time ago, says:

"The 'revelation' which some notoriously trifling, irresponsible being may have been *induced* to make, for some sinister design, only adds to the deeply damning disgrace which attaches to such means to injure a good man, an excellent, and useful citizen."

We don't know anything about Grimsley; never heard of him before; and only know that Dixon, the radical Congressman elect in the 2nd District, is charged with having commanded the party of Leaguers who committed the murder, and that he was indicted for the crime, but subsequently escaped trial through some legal *hocus pocus*. Apart from this, however, and accepting our cotemporary's indignation as sincere, what must the *Advocate* think of the "revelations" which "notoriously trifling, irresponsible" and characterless beings were "*induced* to make, for some sinister design" against "good men, excellent and useful citizens" like Messrs. Wiley, Roan, Mitchell and their friends in Caswell? Revelations made up of a tissue of contradictions by disreputable men who would not be believed on oath by any respectable jury in the country. We apprehend the virtuous indignation of our cotemporary is not quite so strong in this latter case. The difference is that in the one instance it is the *Advocate's* ox that is gored, and in the other it is its neighbor's.

Farewell, Old Pope!

The troops of Victor Emanuel have entered the Roman territory, and the people, so long crushed beneath the feet of an ignorant and rapacious priesthood, have welcomed them with rejoicings. St. Peter has been shorn of his patrimony, and henceforth the Holy City will be the capital of an excommunicated king. Pius the Ninth no longer sits upon a temporal throne, and the mighty fabric built up by the popes at the cost of so much blood and treasure through successive ages has fallen, scarcely creating a ripple in the stream of passing events. As a spiritual bishop, the pope will still exist, but the assumptions which invested the triple crown with dread, are passed away forever, or, if adhered to, will only render the claimant still more ridiculous in the eyes of the world. With the destruction of the temporal power of the Papacy, Christianity passes the threshold of a new era, and the mighty annals of the past are closed and sealed.

THE BLACK DAY.—To-morrow is the anniversary of the great gold panic in New York one year ago, when gold was run up in a few hours to 162¼ by a combination of rascally brokers, assisted by information improperly gleaned from certain government officials, who, it is suspected, but not proven, had an interest in the affair. Hundreds who had arisen in the morning in comparatively easy circumstances, were utterly ruined before night. It is known in New York business circles as the "Black Day."

The *Standard* learns that Mr. John H. Boner, of Salem, intends to have published a volume of his poems some time this coming winter. Poor speculation, John, poor speculation. The past few years have taken all the poetry out of our people, and they have no time now to appreciate anything that hasn't dollars and cents in it.

The Sabbath in France.

A recent decree of the anomalous government which is now ruling the roast in Paris, says:

ARTICLE 1. The electoral colleges are convoked for Sunday, the 16th day of October, for the purpose of chosing a National Constitutional Assembly.

There it is again! Whenever an election is ordered in France, Sunday is generally the day the ballots are cast. If there is to be a special holiday of some kind, or a great public meeting, or a grand parade, Sunday is almost invariably the day that is selected for it. It was on Sunday that this very provisional government was proclaimed, and the fickle mob who sustained it invaded the palace of the Tuileries at 3 o'clock in the afternoon—the very time they ought to have been at church praying for calamity to be averted from their country—tore down the throne, destroyed the imperial emblems, threw into the river many of the valuable works of art, and stole all the portable articles of *vertu* they could lay their hands upon! For a statement of this vandalism, see N. Y. *Times* of 6th inst. A beautiful Sabbath day's work, in sooth. The Fourth Commandment is thus universally, officially and unofficially ignored. A people which thus hold in contempt the Christian institution of the Sabbath, are not likely to be very moral in other respects. Yet some persons are all the time puzzling their brains to discover why France cannot maintain Republican institutions—why she always makes such a determined start towards a Republic, only to fall back, exhausted, into the arms of monarchy! A Republic implies self-government, yet how can a nation govern itself when it rejects the only means that enables it, individually and in the aggregate, to govern itself? With what Christianity there is in the world, the world is bad enough, but not half so bad as it would be without it; and if France thinks, as she did in 1792, that she can run the Republic purely by the dictates of "Reason," ignoring Christianity altogether, she will make as egregious a failure now as then. The truth is that France is far gone in infidelity—a greater curse to her than all the kings and emperors which have ruled her from the days of Charlemagne—and is no more capable of maintaining a well-ordered Republic, than we are of running a line of steamships from here to Raleigh.

Our vacillating Administration has, it seems, arrived at the conclusion that it has been too precipitate in according full recognition to the revolutionary government in France, and crawfishes *from its advanced* position by informing Minister Washburne that he has evidently misapprehended the tenor of his instructions. The first flush of enthusiasm having passed off, the buncombe being pretty well expended, and all the small beer drank up, the Administration now thinks it better to wait a little longer until it has some better evidence than at present of the permanency and stability of the new government. In the meantime Mr. Washburne is to moderate his gushing sympathies and treat with the existing authority merely as the government *de facto*, which is a very convenient diplomatic way of doing a thing and *not* doing it, both at the same time.

The Raleigh *Sentinel* intimates that the suspension of the *Standard* is because of large claims against the establishment on account of Littlefield & Co., and that the property is to be sold. It is said that Smith, the President of the N. C. Railroad, has lost $2,000 by his connection with the *Standard*. It also rumored that a company of carpet baggers is to be formed for the purcha of the concern, consisting of Abbott, Ashley, Churchill, and that Dowell, of th Asheville *Pioneer*, is to be its editor. Of burse, these are *only* rumors, but we shall know positively, ere long, what is to be the ultimate fate of the establishment.

The election in Colorado for a delegate to Congress has resulted in a radical triumph. Fortunately, these territorial delegates don't amount to much. They have no vote in Congress.

It is stated that the Delaware and Hudson canal of New York is, owing to the drought, dried up, and 900 boats and 5,000 men are thrown out of employment by the sudden closing of it.

The population of Boston, Mass., under the present census, is found to be only 253,924, whereat the men of the Hub are exceedingly provoked, and declare the census a "derned swindle."

Private dispatches from Havana say there were 560 deaths in that city from yellow fever for the week ending 10th inst. In New Orleans, there were 52 deaths from yellow fever for the week ending 18th inst.

There were one hundred and twenty-three deaths from *cholera* in the city of Havana on the 19th inst. Yellow fever is still spreading.

Washington City has a total population of 109,238, against 61,122 in 1860, which is a gain of nearly 79 per cent.

The War in Europe.

The Prussian Forces Concentrating Around Paris--Bloody Fighting--The Parisians Quarreling Among Themselves--Efforts for Peace--No Daylight Yet.

SEPT. 15.—Prussia declines an armistice, merely because it would delay military operations, if negotiations were unsuccessful, until the unfavorable season. Heavy seige guns are going forward for the use of the Prussians at Paris and Tours. Napoleon is still at the palace of Wilhelmshohe, where he has full liberty, and is attended royally.

England has not recognized the new government at Paris, but professes strict neutrality. The following views of the Prussian Government are given in a letter from Berlin: Prussia will not treat with the French Republic. The Prussian army will occupy Paris. The Empress Regent, the Imperial Senate and Corps Legislative will then be reassembled, a treaty made and signed, Napoleon will then be released and France left free to choose what government she pleases.

The Spanish Minister at Paris has been recalled, his offence having been the recognition of the French Republic, which is in violation of the treaties of Spain with other powers.

Italian unity is accomplished. The Papal garrison at Montalto has been captured.

SEPT. 16.—The Prussians are slowly concentrating around Paris. The city has been declared in a state of siege, and non-combatants expelled. The splendid forests around Paris are now entirely destroyed.

Russia declines making any further effort at mediation. The American Minister at Berlin denies asking for American intervention. Germany is satisfied with England's attitude, and still pushes forward her troops.

The bombardment of Strasburg is constant and terrific; the city is badly damaged, but the French general has no idea of surrendering.

An engagement took place this morning between the French sharp-shooters and the Prussians, six miles from Paris, in which the former were worsted.

SEPT. 17.—The Prussians are now within cannon shot of the walls of Paris; they captured yesterday a large number of French sharp-shooters and a valuable convoy of war material and provisions. There has been heavy cannonading in the direction of Bourges all day. A great many Prussian spies have been arrested in and around Paris. A new army is organizing in the south of France.

A despatch from Berlin says a German apprentice at Wilhelmshohe attempted to assassinate the Emperor Napoleon.—When arrested a loaded pistol was found on his person, and he declared that the bullet was designed for Napoleon.

Bismarck it is stated, declares that Prussia will prosecute the war indefinitely, rather than abandon the idea of territorial aggrandizement.

SEPT. 18.—Many of the Parisian police have been arrested, charged with being concerned in a Napoleonic conspiracy. Turkey is preparing for coming trouble, and has mustered the reserves of the entire Empire. Heavy firing to-day, eight miles south of Paris. Over 7,000 cannon and shell are being fired into Strasburg daily.

SEPT. 19.—There is now continuous fighting going on around Paris, which city is hourly becoming more closely invested. Jules Favre has issued a circular to the French people, in which he despairs of peace, and says that Frenchmen must now give their hearts and their blood to the contest.

A battle lasting ten hours, took place yesterday ten miles from Paris between the French reconnoitering forces, and 30,000 Prussians. The French were driven back after a bloody conflict, and the Prussians occupied the heights which the former had been holding. The Prussian loss was very heavy.

The Prussians have occupied Versailles but before doing so, fought battles at Juvissey, and Athus. The village of Bazueles, near Sedan, has been destroyed by the Prussians, because some of their wounded soldiers had been massacred in its streets.

Political excitement is very high in Paris. The Red Republicans are struggling to obtain the supremacy. The ultras at Lyons are demanding the re-establishment of the guillotine. The Reds in Paris continue to placard the walls denouncing the present provisional government, and trouble is expected. The citizens of Paris say they prefer Prussian rule to that of the socialists.

Bazaine is still hemmed in at Metz, and the Prussians laugh at the idea of his escaping their clutches.

Prussia distinctly declares she recognizes no French government at present. She is reluctant to make peace just now.

SEPT. 20.—Jules Favre has set out, under safeguard, for the Prussian head-quarters to seek an interview with Bismarck.

There has been an engagement near Chatillon on the outskirts of Paris. The Prussians now occupy Clamart, Murden, Villaneuve, Vannes and Fontenay. The Crown Prince is at Fontainebleau.

The cannon of the garrison at Strasburg is nearly silent. The French general is badly wounded, and his head-quarters have been removed to a cellar. The people still continue the defence.

The French peasantry in the neighborhood of Metz are killing large numbers of Prussian officers, by picking them off with rifles. The Garde Mobile around Paris are slaying many German scouts.

The King of Prussia rejects all offers at mediation in the following terms:—"Whereas, the great powers did not succeed in preventing France from declaring war against Prussia, Prussia now demands her right to treat directly with France for peace; but as France has no regular government, Prussia can have no guarantee that the conditions of the treaty will be fulfilled."

The Emperor Napoleon has formally revoked the decree appointing the Empress as Regent of the Empire.

In the battle at Soissons on yesterday, the Prussians suffered heavily from the French artillery. The conflict lasted all day, when the Prussians were compelled to retire.

The blockade in the Baltic and North Seas by the French fleet has been abandoned.

The Prussians were badly repulsed yesterday in the attempt to storm the fort on Mount Valerien, on the west side of Paris. The Prussians have also met with a sanguinary repulse at Orleans.

A sharp battle took place between Villeneuve and Montmagny yesterday, near Paris. The French forces consisted of three divisions, commanded by Gen. Viney and supported by a strong redoubt, but they were defeated.

Dispatches from Florence confirm the occupation of Rome by the Italian troops. There was no bloodshed, the Pope having forbade resistance. The people of Rome received the Italians with great enthusiasm.

Russia is moving large bodies of troops into Poland. A letter from Bismarck is published in which he says: "The next phase of the war will be the occupation of Paris, and then peace." It is asserted that the King of Prussia will hold all the territory his troops have occupied until a stable government in France guarantees the treaty of peace.

NEWS OF THE WEEK.

LOCAL AND STATE ITEMS.

SNEAK THIEVERY.—The room of our friend, W. G. Barbee, Esq., proprietor of the well-known hotel at High Point, was entered by some graceless scamp on the night of the 19th ult., and a pocket book stolen containing, besides sundry valuable papers, money to the amount of about $150. Mr. Barbee offers a handsome reward for the recovery of his property and arrest of the thief.

SALEM MALE ACADEMY.—We have hitherto neglected to call attention to the fact that this institution, after an extended recess, is again open under the auspices of Mr. Jacob D. Siewers, and that it has a fair attendance of pupils. Mr. Siewers is a young gentleman whose attainments render him in every respect capable of conducting the Academy to the satisfaction of both parents and pupils, and we confidently believe that it will flourish under his administration.

HAIL STORM.—A heavy storm of wind, rain and hail, passed over the upper part of our county on last Sunday afternoon between 4 and 5 o'clock, coming from the North-west and passing towards the South east. Although the hail fell only some fifteen minutes, and was not large, yet it came down very thickly and violently. Since then the weather has been decidedly cool.

A HORSE THIEF.—Mr. James Garvey of Ashe county, publishes Allen J. Hooper, of Caswell county, as a notorious horse-thief, and charges that he stole the fine mare taken from Mr. G., some weeks ago. It behooves our friends to keep an eye on the individual.

HOME AGAIN.—We are glad to notice once more upon our streets Mr. Samuel C. Lemly, now of the U. S. Naval Academy, at Annapolis. Mr. L. was appointed to the Academy over a year ago, through the favor of Hon. I. G. Lash, and is now for the first time, on a furlough of fifteen days. He has recently returned from a "schooling cruise" to several of the European ports.

IN INVITING ATTENTION TO THE CARD of Messrs. CUSHINGS & BAILEY, Booksellers and Stationers of Baltimore, would note especially two considerations: the increased importance of Baltimore as a market, and the large facilities of this particular house. The trade of Baltimore with the South has increased more in proportion since the war than that of any other city, and the claim of its merchants and manufacturers that they can sell goods cheaper than they can be bought elsewhere finds now substantial proof in the large orders they are constantly receiving from every portion of the South. The house of CUSHINGS & BAILEY was established in 1811, and it has been a characteristic feature of their manner of trading that they have invariably given the buyer who orders his wares by mail the same superior advantages he could have secured in person.

Employing a large capital in their business, they combine the utmost enterprise with the most elevated integrity. For further particulars we refer to their advertisement.

The Raleigh *Sentinel* says: A fellow named Johnson, it is said, who was formerly a Revenue officer in Guilford and other counties, is engaged in selling counterfeit Revenue tobacco stamps. A respectable young man of Rockingham county took a load of manufactured tobacco, recently, stamped with the stamps sold by Johnson, supposing that they were genuine, started to sell, and while over in Wythe county, Va., was arrested and imprisoned for want of bail.

A dangerous fifty cent fractional currency note of the new issue has just been put in circulation. It closely resembles the genuine. The paper used in the genuine is pink-tinted. The counterfeit is slightly greenish in color, and the face is somewhat blurred. The words fractional currency and stamps are darkly shaded, which is not in the genuine. There is also a difference in the back of the notes.

The Charleston *Courier*, in its annual statement of the crops for the year ending August 31, 1870, puts down the North Carolina cotton crop 57,855 bales, against 36,160 bales in 1869, and 38,640 bales in 1868. Averaging 400 pounds to the bale, we estimate the crop of the present year at 23,142,000 pounds, which at the present price, 18½ cents, ought to bring into the State over four millions of dollars.

The League desperadoes, who some time back kept Robeson county in hot water, are again on the rampage. On last Sunday morning they attacked the house of Mr. Alex. McMillan, drove the family into the kitchen, placed an armed guard over them, and then plundered the place, carrying off guns, pistols, a large lot of bedding, and the wearing apparel of the family.

On yesterday week, Jim McKinnon, colored, living in Robeson county, attacked a white lady named Mrs. Finch, in her own house, with a loaded pistol. The cries of the latter brought her husband, whereupon McKinnon turned upon him and attempted to shoot him. Mr. Finch then levelled his gun, and shot the desperado through the knee. Wounded as he was, he escaped to the swamp, but was subsequently overhauled, and is now in jail at Lumberton.

The Cherokee Council, on the 10th inst., authorized the principal chiefs of the Nation to inform the Commissioner of Indian affairs of their willingness to receive the North Carolina Cherokees into the nation, provided they remove without expense to the nation; and also that no rights or benefits now claimed by them be granted till they shall have removed west and become identified as citizens of the nation.

The citizens of Raleigh are offering a number of special premiums in connection with the regular premium list for the State Fair next month. They are taking the greatest of interest in the approaching Fair, and are keenly alive to the benefits which will accrue to the trade of the city from the great influx of visitors expected.

The Danville *Register* says that a negro man named Mack Boyle, one of Holden's N. C. constituents, who had gone over to Danville on a thieving raid, broke into the house of Mr. John W. Gibson some weeks ago, was caught, tried, found guilty, and sentenced to the Virginia penitentiary for ten years.

On the night of the 9th inst., the residences of Postmaster White and Mr. M. C. Dixon, of Greensboro, were entered by burglars, and a quantity of valuables carried off. Suspicion, says the *Patriot*, rests upon a negro named Henry Johnson, who hails from Danville, but he had not been caught at last accounts.

DIED,

In this place, on Friday, Sept. 16th, 1870, little JANIE, infant son of Rev. M. E. and Maria Grunert, aged 2 years, 10 months and 4 days.

A dearly beloved member of the family circle has been taken away; one whose merry voice rung through the house—whose joyful, guileless heart waked up deep, fervent love, and one whose death has left a painful void in the hearts of his father, sisters and brothers, who watched over him with anxious solicitude. Oh! may they find in the rich promises of the gospel, a source of true consolation.

Go to thy rest, sweet child
Go to thy dreamless bed,
Gentle and undefiled,
With blessings on thy head.
Because thy face was fair,
Thy little eye so bright,
Because thy childhood's care
Was such a fond delight,
Shall love with weak embrace
Thy heavenward flight detain?
No, angel seek thy place
In yon cherubic train.

FRIEND.

At his residence in Davidson county, on the 9th inst., suddenly, Rev. JOHN SWISEGOOD.

Cane Cleaner.
(Patent Granted.)

THIS is the name of a new machine for the purpose of removing all the fodder, boots or husks, mildew, and all filth from the Sorghum-Cane stalk, in about one-fifth the time and with half the trouble and fatigue that is required to pull the fodder off by hand.

When the boots or husks are *all* removed from the Sorghum-cane it will not only make *purer* and *better* molasses, but will yield at least ten per cent more sap, which quantity, it has been ascertained, the boots will absorb when crushed with the stalk.

When using the Cane Cleaner, you have only to cut your cane with fodder and seed all on, haul it in the shade and then work at ease, either sitting or standing, as you prefer.

One man, with an Eagle Cane Cleaner, can easily clean the cane as fast as an iron mill will grind it.

Price of Cleaners, Three Dollars each. A liberal discount to the trade.

For Circulars, sample cleaner, &c., apply to, or address the inventor,

A Beautiful Superstition.

In Poland every individual is supposed to be born subject to some particular destiny or fate, which it is impossible for him to avoid. The month of his nativity has a mysterious connection with one of the known precious stones, and when a person desires to present the object of his affection with an acceptable present, a ring is invariably given, glittering with a jewel by which the fate of that object is imagined to be determined and described. For instance, a lady is born in January—her ring must therefore be Jacinth or Garnet, for these stones belong to that peculiar month of the year, and express "constancy and fidelity."

The following is a list of the different stones, corresponding to each month in the year:

January—Jacinth or Garnet. Constancy and fidelity in every engagement.

February—Amethyst. This month and stone preserve mortals from strong passions, and insure them peace of mind.

March—Blood stone. Courage and success in dangers and hazardous enterprises.

April—Sapphire and Diamond. Repentance and innocence.

May—Emerald. Success in love.

June—Agate. Long life and health.

July—Cornelian or Ruby. The forgetfulness or the cure of evils springing from friendship or love.

August—Sardonyx. Conjugal felicity.

September—Chrysolite. Preserves from or cures folly.

October—Aqua-marine or Opal. Misfortune and hope.

November—Topaz. Fidelity and friendship.

December—Turquoise or Malakite. The most brilliant success and happiness in every circumstance of life; the Turquoise has also the property of securing friendly regard; as the old saying that "he who possesses a Turquoise will always be sure of friends."

A Yankee having once told an Englishman that on one particular occasion he shot nine hundred and ninety-nine snipe, the Englishman asked why he did not make it a thousand at once. 'No,' said he, 'not likely I'm to tell a lie for a single snipe.' Thereupon the Englishman rather 'riled,' and determined not to be outdone, began to tell a story of a man having swam from Liverpool to Boston.

'Did you see him?' asked the Yankee.

'Why, of course I did. I was coming across, and our vessel passed him a mile out of Boston Harbor.' 'Well,' says the yankee, 'I'm glad ye saw him stranger, cos yer a witness that I did it. That was me.' The Englishman began to feel uneasy and was heard inquiring the way to his vessel.

An Irish boy trying hard to get a place denied that he was Irish.

'I don't know what you mean by not being an Irishman,' said the gentleman who was about to hire him; 'but this I do know, that you were born in Ireland.'

'Och, your honor, if that's all, small blame to that. Suppose your old cat had kittens in the oven, would they be loaves of bread?'

The boy got the place.

THE AMERICAN

FRUIT PRESERVING POWDER,

WILL effectually prevent Fermentation and subsequent decay, in all kinds of *Fruits, Tomatoes, Vegetables, Cider, &c.,* and preserve them in good and wholesome condition, without the trouble or expense of air-tighting the jars or cans. They admit of keeping the fruit, &c., in large glass, earthen, or stoneware vessels, and of using or removing therefrom from time to time as wanted, without fermentation being occasioned by weeks of full exposure to the air.

This is a different preparation from "Spears' Solution," and will not affect the taste of the fruit, if used according to the directions.

One package will preserve sixty-four (64) pounds of fruit. Price $1 Full and explicit directions for using accompany each package; and although the directions with package are full and elaborate, they are simply explained as follows: Prepare the fruit in the same manner as for any of the usual modes of preserving; and add an ounce of the Preserving Powder to each eight pounds of fruit; cook until done enough for immediate use; then remove into any kind of jars, and cork with an ordinary cork, or tie cloth or paper over the top, when the work is done, and the fruit safe for one or two years.

J. L. FULKERSON,
Sole Agent.

Salem, N. C., June 24, 1870. 3m.

Having used the Powders last season with perfect success, I can fully endorse it. Please see "American Agriculturist," page 207, June 1870. J. A. LINEBACK.

AGENTS WANTED FOR

HOW TO MAKE THE FARM PAY

By C. W. DICKERMAN, Hon. CHARLES L. FLINT, and other Practical Writers.

Nearly 800 pages on fine CALENDERED PAPER made expressly for this work, from new, clear and open type, and is illustrated with 140 FINE ENGRAVINGS by Sartain and others. Also, a splendid colored fruit-piece, containing eighteen specimens of the choicest American fruits, colored, from life.

In English and German.

THIS BOOK is a sure, safe and practical guide to every Farmer, Stock Raiser, Gardner and Fruit Culturist. By it they can double their profits each year, and greatly increase the value of their land. It makes the poor man rich. It makes hard work easier. It rewards the labor of honest working men, and is purchased by almost every one at sight. Nearly 600 copies sold in a few small townships, and, in many cases, hundreds in a single township. Agents can find no better work during the winter. Farmers and their sons can each make $100 per month by selling only three or four copies per day, while more than double that number can easily be sold. Farmers always make our most successful agents for this book. If you wish to engage in the business, send for circular containing a full description of the book and terms to agents.

TO PHYSICIANS.

NEW YORK, August 15th, 1868.

Allow me to call your attention to my

Preparation of Compound Extract Buchu.

The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.—Buchu, in vacuo. Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirit. It is more palatable than any now in use.

Buchu, as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopœa, nor is it a Syrup—and therefore can be used in cases where fever or inflammation exist. In this, you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation.

With a feeling of confidence,
I am, very respectfully,
H. T. HELMBOLD,
Chemist and Druggist,
of 16 Years' Experience.

[From the Largest Manufacturing Chemists in the World.]

NOVEMBER 4, 1854.

"I am acquainted with Mr. H. T. HELMBOLD; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

WILLIAM WEIGHTMAN,
Firm of Powers & Weightman,
Manufacturing Chemists,
Ninth and Brown streets, Philadelphia.

Helmbold's Fluid Extract Buchu

Is the great specific for Universal Lassitude, Prostration, &c.

The constitution, once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to, Consumption or insanity ensues.

Helmbold's Fluid Extract of Buchu

In affections peculiar to Females, is unequalled by any other preparation, as in Chlorosis, or Retention, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Schirrus State of the Uterus, and all complaints incident to the sex, or the decline or change of life.

Helmbold's Fluid Extract Buchu and Improved Rose Wash

Will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superceding those unpleasant and dangerous remedies, Copaiva and Mercury, in all these diseases.

Use Helmbold's Fluid Extract Buchu

In all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken-down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

Sold by Druggists everywhere. PRICE—$1.25 per bottle, or 6 bottles for $6.50. Delivered to any address. Describe symptoms in all communications.

The Great Medical Discovery!
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS,

Hundreds of Thousands Bear testimony to their wonderful Curative Effects.

WHAT ARE THEY?

THEY ARE NOT A VILE
FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits, and Refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters, according to directions, and remain long unwell.

$500 will be given for an incurable case, providing the bones are not destroyed by mineral poisons or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism, and Gout, Dyspepsia, or Indigestion, Bilious, Remittent, and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They invigorate the stomach, and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

Dyspepsia, or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Copious Discharges of Urine, Pain in the regions of the Kidneys, and a hundred other painful symptoms which are the offsprings of Dyspepsia, are cured by these Bitters.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed.

For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French, and Spanish.
